### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ms. Catherine Fitch on December 6, 2005.

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I: Claims 1-12, 18, and 19, drawn to a chemical compound, a composition, and a method of preventing obesity using a compound of formula (I).

Group II: Claims 13-17, drawn to a method of treating a disease mediated by Cannabinoid-1-receptor using a compound of formula (I).

Inventions I-II are related as only process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP, 806.05(h)). In the instant case, the claims are drafted as various method of using. See claims 13 and 18.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Art Unit: 1625

4. During a telephone conversation with Ms. Catherine Fitch on December 6, 2005 a provisional election was made *without* traverse to prosecute the invention of Group I, claims 1-12, 18, and 19. Claims 13-17 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

5. The application has been amended as follows:

A. Claims 13-17 have been canceled.

B. Claim 18 has been amended to read in favor of:

--Claim 18. (original) A method of treating obesity in a person at risk for obesity comprising administration to said person of about 0.001 mg to about 100 mg per kg of a compound according to Claim 1.--.

#### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

6. Applicants preserve the right to file divisional applications drawn to the non-elected subject matter of claims 13-17.

7. Claim 18 has been amended to meet the requirements of 35 USC §112, 1<sup>st</sup> paragraph. At pages 59 and 167 of the specification, support of this change is found. The change has not been made to avoid any possible rejections based upon prior art.

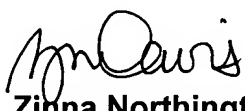

8. The Information Disclosure Statement filed April 27, 2005 has been considered. The references alone or in combination forms do not teach nor suggest structurally similar compounds as those instantly claimed. Accordingly, the claims are deemed allowable therefrom.

Art Unit: 1625

9. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

10. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Zinna N. Davis whose telephone number is 571-272-0682.

11. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
